National Survey of COVID-19 Impact on United States Museums

Fielded June 2020

There are an average of 622 responses per slide and a total of 760 museums responding to the survey.

**MEDIANS:**
- Statistics have been prepared using medians. The median value represents the middle value in a data range.
- Median values help to prevent unusually large or small data points (outliers) from skewing results.

**NUMERIC RESULTS:**
- A line chart or bar graph presents the 25th percentile, median, and 75th percentiles.

**MULTIPLE CHOICE RESULTS:**
- The percentage of responses is shown for all answer options associated with a question.

Do you anticipate having to cut back on education, programming, and other public service due to budget shortfalls and/or staff reductions?

Yes (64%)

No (36%)

*number of respondents = 619*
This research was conducted by Dynamic Benchmarking for the American Alliance of Museums (AAM).

Demonstrating their unwavering commitment to the museum field during this difficult time, Dynamic Benchmarking conducted this research for free to illustrate the dire impacts of the pandemic on the field. This data is critical as the Alliance continues to advocate for the resources museums require to recover from the current financial crisis.
